

HL122

light industrial

scale

- ◆ Low cost, high performance
- ◆ For weighing, counting or checkweighing
- ◆ Large, easy to read display
- ◆ Battery or mains operation
- ◆ Backed by a nationwide service network

The HL122 light industrial scale offers three-in-one flexibility. Weighing, counting or checkweighing, this low cost, high performance machine is the ideal choice for a wide range of weighing applications.

- ◆ **As easy as 1,2,3**
Piece weights are easily selected and count quantities clearly displayed. Optional transmission of totals to a PC or a 24-character tally roll printer is available.
- ◆ **Check it out!**
A variety of features is available to assist with checkweighing routines including selectable targets by weight or by the number of pieces and programmable under and overweight tolerances. The display instantly confirms 'under', 'accept' and 'over' weights and a programmable, audible alarm warns the operator of any potential problems. An optional relay output is available for monitoring weight tolerances.
- ◆ **It all adds up**
An addition function is available to store the number of weighings or pieces and their accumulated total. This information can be optionally relayed to a PC or printer.
