- large LCD display
- audible alarm for target

C3225

BENCH SCALE WITH CHECKWEIGHING

Features & Benefits

The Salter Brecknell C3225 is a low cost, stainless steel bench scale with full checkweighing functionality.

Target setting is simplicity itself and once set, the C3225 indicates 'over', 'under' and 'accept' on an easy-to-read traffic light LED set - red, green, yellow. In addition, an audible alarm is also included to indicate weight within tolerance.

The C3225 is powered by internal rechargeable battery for complete portability with a full eight hours usage from a single charge. The machine includes an auto-off feature to conserve battery life, it switches off after two minutes of inactivity. A battery low LED shows when recharging is necessary.

Five internal overload stops help prevent load cell damage.

Options

Foot pedal for operation of scale on/off and tare entry/cancel.

Specification

CE approved

Capacities and resolutions
3 kg x 0.5 g
6 kg x 1 g
